

bioMASON
building with nature

bioMASON Inc.
2018

Job: bioPRODUCTION Associate
Location: Research Triangle Park, NC
Start Date: Effective Immediately, Full Time

bioMASON is a unique biotechnology start-up manufacturing company with a natural process that will revolutionize the building and construction industry. bioMASON employs microorganisms and chemical processes to manufacture biological cement-based masonry building materials in ambient temperatures.

bioMASON is dedicated to finding talented, multi-faceted, hard-working, and passionate people to join our innovative team. We are a young start-up seeking to make a massive impact on carbon emissions. bioMASON believes in a fast-paced, creative working environment that fosters collaboration and innovation unhindered by traditional boundaries.

The company appeals to self-directed, flexible teammates who embrace ambiguity, learn quickly, possess interpersonal skills, and seeks to test ideas through rapid iteration. An insatiable curiosity about biocement™, design sensibilities, and customer experience is required. Candidate should be comfortable working independently, without direct supervision. The work often requires more than 40 hours per week including occasional nights and weekends.

This position will maintain aggregate processing production in Research Triangle Park and partners' locations. This position is supervised by the Director of Business Management.

Minimum Qualifications:

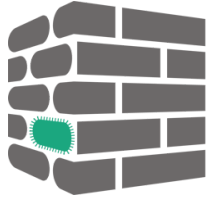

- Previous work experience
- Associates Degree (or In pursuit of a degree in engineering or the sciences or equivalent experience)

Responsibilities, Tasks and Outcomes:

- Aggregate Sieve analysis (QA/QC)
- Aggregate Preparation
- Troubleshooting challenges with minimal direction
- Working to continuously improve processes
- Performing other duties assigned by your supervisor

Required Skills and Interests:

- Excellent attention to detail and ability to multitask
- Experience with hand, power, and shop tools
- Learning and maintaining mechanical equipment and production systems
- Experience in a hands-on, physically demanding work environment
- Solving problems through collaborative teamwork, including follow-through on execution of tasks
- Ability to work with small teams under tight deadlines
- Excellent communicator, organized, and professional

bioMASON
building with nature

The Candidate Must Be:

- Organized and possess excellent attention to detail
- Creative, flexible, proactive, punctual, persistent
- A team player
- Able to Self-Manage
- Comfortable with a demanding, fast-paced work environment and ability to excel in a growing environment

bioMASON Employees Must Possess:

- Professionalism
- Integrity and Honesty
- Passion and Motivation
- Analytical Skills
- Intelligence and Aptitude
- Productivity

Must have reliable transportation to the RTP area.
