Biomason Hires New CEO

Research Triangle Park, North Carolina, USA / April 8 , 2024 — Biomason Inc. appointed Camilo Restrepo Restrepo as Chief Executive Officer, effective March 4, 2024. Mr. Restrepo is a proven leader in the cement and concrete industry who joins Biomason after 19 years at Cementos Argos, most recently as President of the Cement Business Unit for Argos USA.

“Mr. Restrepo is a strategic and collaborative leader with a proven track record of driving performance at the intersection of manufacturing and innovation,” said Peder Holk Nielsen, Chairman of Biomason’s Board of Directors. “I am confident he is the right leader for the next chapter in Biomason’s growth, as we continue to pursue the ambitious goal of decarbonizing the industry.”

Concrete is the second most consumed substance on the planet, and cement is responsible for 8% of global carbon dioxide emissions. Biomason harnesses the power of biology to grow cement, offering an alternative to ordinary portland cement in the manufacture of concrete products.

“I am honored to have the opportunity to lead the Biomason team. I see great promise in delivering a cost-effective alternative to traditional cement and am committed to working toward a more sustainable future,” said Mr. Restrepo.

Biomason also recently elevated its R&D leadership through the addition of Dr. Aristos Aristidou, who joined Biomason as Chief Scientific Officer in 2023. Dr. Aristidou has more than 25 years of leadership experience in bioindustrial technologies and came to Biomason after a decade as Director of Biotechnology R&D at Cargill.

About Biomason:

Biomason uses biotechnology to offer a planet-friendly alternative to traditional cement. Biomason’s headquarters are in Research Triangle Park, North Carolina, and the company is producing biocement-based concrete at a factory in Denmark. Learn more at biomason.com
